Work on the development of shipping industry and advancement of its main axes are the goals to build strong country owing its own decision .Egypt has infrastructures to strong maritime industry and also human resources which is the base of any industry. Egypt has specialist to rehabilitate good technical and IT labor and also the number of Egyptian fleet that is collapsed which led to number of labor to the Egyptian ships is not fitting. This is leading to defect in Egyptian maritime labor market and increase the unemployment rate that needs to study the needs of maritime labor market and presenting ourselves in the international maritime labor market with our factors to gain access to that market, also we have a duty to combine efforts of the Government, the Arab Academy, the Syndicate and the manning companies to overcome obstacles that facing Egyptian maritime labor marketing.
