- To describe how the quay transfer operation is performed, for the various equipment systems.
- To discuss the factors that determine quay transfer performance and to show how performance can be improved.
- To describe best operating practices and precautions necessary to ensure an efficient and safe quay transfer operation.

**Course includes:**  Theoretical  Fire Training Module  Laboratory  
 Workshop  Site Visit

**Course Prerequisites:** Before starting this Unit, the trainees should have completed successfully the following Units or will have demonstrated (for example by successfully completing the Tests for those Units) their understanding of the topics covered by them:

Container terminal operations (C.1.1)

Container ship loading and discharge operations (C.1.2)

**Who should attend:** All Workers in the Container Terminal

**No. of Participants/course:**  5-10       10-15       15-20       Other

**Qualifications of Participants:**

- Average as a Minimum

**No. of Lecturer:**     1                       2                       5

**No. of Assistance:**     1                       2                       3

**Course Facilities**

White Board     V. Projector     Data Show     PC     Manual  
 Books             Handouts        Flip Charts     S/W        Other

**Course Evaluation**

Written Examination     Written Report(s)     Oral Presentation     Attendance  
 Delegates Participation

**Certificate Issue:**

Local Premises                       AASTMT                       International

**Course Registration**

Admission and Registration

Department at the Port

**Registration:**                      Training Institute                       Online                       Other

Beside gate No. 27 - outside  
customs area, Alexandria Port

**Documents required:**     Registration form                       ID/Passport copy                       Photo
