

## Training Course Information Form

### Course Information

**Course Name:** Safe Working on Container Vessels

**Institute/Centre:** Port Training Institute      **Course Code:** C.4.2

**Type:**       Program       Course       Workshop

**Course Duration:**       5 Days       3 Days       1 Days       Other

**Course Conducted:**       Local       International      Indicate: A.R.E

**Course Venue:** Anywhere

**Course Language:**       English       Arabic       Both       Other

### Course Description

#### Course Outlines:

1. Introduction — the dangers of working aboard, and why accidents happen
2. Conventions, Code of Practice, laws, terminal safety policy, operations planning
3. Personal protective clothing and equipment
4. General requirements for safe access to vessels, and responsibilities relating to them.
5. Safe means of access to the vessel
6. Safe access to the work area
7. Safety of equipment used aboard ship
8. Safe access to above-deck container stacks
9. Safe working on above-deck stows
10. Safe access to and working in holds; the dangers of confined spaces
11. Emergencies and responses to them, examination of ship's emergency systems
12. Finishing work, and leaving the vessel and quay.

#### Course Objectives:

This Unit is designed:

- To stress the dangers encountered in working aboard container vessels at berth.
- To explain the respective safety responsibilities of the parties involved in loading and discharging container vessels.
- To describe the status of international safety standards relating to working aboard container vessels at berth, and how they are implemented in ports.
- To describe the procedures that ensure safe access to vessels, safe movement about vessels and safe access to and working within cargo spaces.
- To describe the procedures established to deal with emergencies involving personnel working aboard container vessels at berth.

**Course includes:**       Theoretical       Fire Training Module       Laboratory  
    Workshop       Site Visit

**Course Prerequisites:** Before starting this Unit, the trainees should have completed successfully the following Units or will have demonstrated (for example by successfully completing the Tests for those Units) their understanding of the topics covered by them:

Container terminal operations (C.1.1)

Container ship loading and discharging operations (C.1.2)

Container ship construction (C.2.1)

Safe working on container terminals (C.4.1)

**Who should attend:** All Workers in the Container Terminal

**No. of Participants/course:**  5-10       10-15       15-20       Other

**Qualifications of Participants:**

- Average as a Minimum

**No. of Lecturer:**       1       2       5

**No. of Assistance:**       1       2       3

**Course Facilities**

White Board     V. Projector     Data Show     PC     Manual  
 Books             Handouts        Flip Charts     S/W        Other

**Course Evaluation**

Written Examination     Written Report(s)     Oral Presentation     Attendance  
 Delegates Participation

**Certificate Issue:**

Local Premises                       AASTMT                       International

**Course Registration**

Admission and Registration

Department at the Port Training

**Registration:**                      Institute                       Online                       Other

Beside gate No. 27 - outside  
customs area, Alexandria Port

**Documents required:**     Registration form                       ID/Passport copy     Photo
