

Training Course Information Form

Course Information

Course Name: Supervision of Container Freight Stations

Institute/Centre: Port Training Institute **Course Code:** S.2.5

Type: Program Course Workshop

Course Duration: 5 days 3 days 1 days Other

Course Conducted: Local International **Indicate:** A.R.E

Course Venue: Anywhere

Course Language: English Arabic Both Other

Course Description

Course Outlines:

1. Introduction: CFS staff, supervisors and responsibilities
2. Planning- advance information and work scheduling
3. Planning - storage space requirement and allocation
4. Planning - packing, loading and stowage space requirement
5. Supervisory control of cargo movement; the control system
6. Supervision and control of export handling
7. Supervision and control of import handling
8. Supervision and control of 'special' cargoes
9. General supervisory responsibilities.

Course Objectives:

This Unit is designed:

- To discuss the labour and equipment resources of a CFS, and the procedures for allocating and deploying them.
- To explain the procedures by which the reception, storage and dispatch of cargoes are planned and prepared.
- To describe the procedures followed in controlling and supervising the handling of export cargoes through the CFS, arriving by road, rail and inland waterway transport.
- To describe the procedures followed in controlling and supervising the handling of import cargoes through the CFS, leaving via road, rail and inland waterway transport.
- To review the general responsibilities of the CFS supervisor.
- To improve the quality of CFS supervision and to provide the knowledge and skills for a critical review of current supervisory procedures and mechanisms.

Course includes: Theoretical Fire training module Laboratory
 Workshop Site Visit
