

C.V

Personal Data:

Name: Sara Hassan Kamal Elgazzar

Name of Organization: Arab Academy for Science, Technology & Maritime Transport (AASTMT)

Years within the organization: 14

Current Position:

- Dean of College of International Transport and Logistics
- Project Manager of AASTMT new campus at Al Alamein new city

Previous position:

- President's assistant for Institutional Development
- Director of the Strategic Marketing Center
- Chair of Logistics of International Trade department, College of International Transport & Logistics

Academic Status: Associate professor in Supply Chain Finance

Date of birth: 1/ 8/ 1983

Nationality: Egyptian

Tel. Number: (002) 01281068680

Email: sara.elgazzar02@gmail.com – sara.elgazzar@aast.edu

Education:

2013: PhD degree in Supply Chain Finance

Business School, The University of Huddersfield, Huddersfield - UK.

Thesis title: "Enhancing the company's financial performance through managing the performance of supply chain operations: A case study of an Egyptian manufacturing company"

2010: MPhil degree in Supply Chain Management

School of applied science, The University of Huddersfield, Huddersfield - UK.

Thesis title: "Incorporating fuzzy AHP in SCOR model for measuring supply chain operations' performance: a case study of an Egyptian natural bottled water company"

2008: Diploma in International Transport and Logistics.

Institute of International Transport and Logistics, Arab Academy for Science, Technology and Maritime Transport, Alexandria- Egypt in cooperation with Molde University, Norway.

2006: Master of Business Administration (MBA). (Major: Finance)

Graduate school of business, Arab Academy for Science, Technology and Maritime Transport, Alexandria- Egypt.

Thesis title: "investigating factors cause absence of financial leasing in Egyptian shipping sector"

2004: Bachelor of Business Administration. (Major: Finance)

College of management & technology, Arab Academy for Science, Technology and Maritime Transport, Alexandria-Egypt.

Professional Certificates:

2013: Certified Trainer and Instructor

The International Federation of Freight Forwarders Associations (FIATA), Genève.

2012: Certified Trainer and Instructor

International road union (IRU), Switzerland.

2003: A professional certificate in Modern Accounting.

The American University in Cairo

Consultancy & Practical Experience:

- **Committee member: The master plan of the Egyptian logistics centers project.**
- **Consultant for the Union of Arab Chamber (February 2018 - to date)**
- **Consultant for the Egyptian Federation of chamber of commerce (2014 - to date)**
- **Board Member (July 2014 – June 2017):** Holding Company for food Industries under the Egyptian ministry of Supply and Internal Trade. The Holding Company for food Industries plays a strategic role in the Egyptian internal trade system as it is responsible for supplying the needs of the Egyptian food subsidies system which serves 70 million Egyptians.
- **Steering committee member and coordinator (2015 – September 2016):** "Gameeti project", a franchise project offering commodity loans for more than 14000 young people ranging between EGP 50,000 to 100,000 each for the establishment of retail outlets supervised through a franchise right by the Holding Company for food Industries to increase the accessibility and the availability of commodities and food outlets to citizens and provide job opportunities for young people. 2000 outlets have been opened so far (creating 8000 direct jobs), presenting by this the largest chain in the Middle East in terms of the number of outlets.

- **Steering committee member and coordinator (2015 – September 2016):**
" Egypt's Food Industries, consumer complexes e-linking project", in cooperation with Microsoft- this project connects Egyptian Food Industries Holding Company, groceries, wholesale companies and consumer complex companies in a unified electronic network as the biggest e-linking project in the Middle East. The project connects 500 wholesale ports with 40,000 retail outlets and groceries that serve all the suppliers to decrease the cost of goods traded in stores and consumer complexes by 30%, provide time-saving mechanisms in transportation and handling processes, as well as provide electronic reports on works in progress can be sent instantaneously in addition to information about consumer feedback and their requests or suggestions for the available commodities which allow creating an expert system to support strategic decisions.
- Participated in designing the logistics and the financial systems of the **Egyptian food subsidy system** (2014- September 2016).
- **The New Food Subsidy System** includes (bread system, ration food system, new incentive points system). The new bread system improved the subsidized bread supply chain through shifting towards the output-based financing. On the Ration food system, the system has also moved from subsidized commodities to subsidized beneficiaries. The new system of food subsidy adopts an incentive points-based mechanism with a better consolidation of the two food subsidy programs. The unused monthly allowance of subsidized Bread converts into points, which could be used to buy other food commodities within the same Smart Card System. It worth mentioning that millions of Egyptians have suffered through long decades since 1970s from bread crisis and difficulty of obtaining it in addition to very bad quality.
- **The Coordinator and The Manager of Financial Affairs (2012-2015):** LACTIMED Project launched and financed by EU under Euro-Mediterranean Cooperation Agreement. The project aims to foster the production and distribution of typical and innovative dairy products in the Mediterranean by organizing local value chains, supporting producers in their development projects and creating new markets for their products. In the end, it will lead to the creation of the Mediterranean network of dairy clusters.
- **Designed the reward systems** for five main companies in the Egyptian food retail sector (2014 -2015).
- **Exchange of Experience Program (2015, Sicily, Italy):** Training in collaboration with CORFILAC (centre of applied research focused on the traditional dairy productions) covered consumer behaviour, marketing activities, Mediterranean products, PDO certificate and field visits.
- **Developed a supply chain performance system (2011):** the system measures and improves supply chain operations performance. The system was successfully implemented in one of the Egyptian bottled water companies.
- Participated in a number of **consultancy projects and studies** for the Arab league and region.
- Participated in preparing **several economic, logistics and financial reports** for the Egyptian government.
- Prepared several **Feasibility Studies** for both public and private sectors.

- Participated in **organizing several national and international industrial and academic events** in different fields of business and logistics.

Academic Qualifications:

- **Lecturing and training** (In English language and Arabic language) in several areas of Business, Finance and Supply Chain both for undergraduate and postgraduate, for Egyptian and foreign students.
- **Publishing** many papers in international journals and conferences in several areas of Business, Finance and Supply Chain.
- **Supervising** and refereeing number of masters and PhD researches.
- **Reviewing** number of papers in international journals.
- **Conferences and agreements:** Organizing and participating in great number of national and international events in different fields of Business, Economics, Finance, Supply chain, Transport and Logistics.
