Arab Academy for Science, Technology & Maritime Transport
Dear Students

It gives me great pleasure to congratulate you on succeeding in your secondary stage of education and joining the Arab Academy’s family. It is heartwarming to welcome you now as you start a very significant stage of your practical life. Choosing the Arab Academy to continue your studies really reflects your aspiration towards distinction and creativity.

The Academy would exert every effort to prove to you that you have really made the best choice and to emphasize the quality of its educational process and its outputs represented in a distinguished graduate fully capable of competing in the marketplace with the knowledge, culture and educational excellence and the hands-on experience acquired, which will definitely be reflected in your practical and future career.

The Academy in 2012 celebrated the 40th anniversary of its establishment and contribution to developing and enhancing the educational process not only in Egypt but in the Arab World and the African entity as well. The mission and the goal of the Arab Academy as an educational, non-profit organization is the main and persistent motive to provide a distinguished educational service that conforms to the wish of both parents and sons as well as to the constantly changing and rapidly developing market needs.

The Academy welcomes each and every one of you and looks forward to your continuous work and effort to keep the Academy’s prestigious status and to achieve the main purpose of joining it, that is learning, knowledge, and enjoying the Academy’s society.

Dr. Ismail Abdel Gafar Ismail Farag
President, AASTMT
The Arab Academy for Science, Technology and Maritime Transport is one of the specialized organizations of the League of Arab States whose member-states are participants in the AASTMT. Since its establishment in 1972, the Academy has been involved in the various fields of education, training, scientific research and community service. Being a multi-purpose, multi-task institution, the Academy basically offers its services to students from the entire Arab world, as well as those from African countries. The Academy undertakes teaching, training designed to qualify students in the all fields of knowledge, including sciences, technology and humanities.

For more than 40 years, the Academy has made several educational, training and research achievements in the spheres of maritime transport, engineering and management sciences through adopting methodological applications of cutting edge technology. The Academy has thus managed to move forward from regionalism to internationalism, occupying a leading, world-wide rank in the list of educational institutions. In 2007, the Academy was granted the award offered by International Organization for Standardization (ISO), thus securing a position among the world’s top six institutions in applying standardized levels in higher education.

The Academy offers its educational, training and research services across its main entities:
Alexandria (Main Headquarter)
AbuKir Campus comprises

College of Maritime Transport & Technology
- Navigation Technology + Second Mate Certificate (for male students only).
- Marine Engineering Technology + Third Engineer Certificate (for male students only).

Duration: 4 years (8 semesters)

In addition, the college includes specialized departments and programs:
- Management and Economics
- Maritime Safety
- Post-graduate Maritime Studies
- Protection of Marine Environment Program
- Diving Program
- Meteorology Program
- Fisheries Program

College of International Transport and Logistics (Arabic – English)
- International Trade Logistics Management Department.
- Transport Logistics Management Department.
- Logistics and Supply Chain Management Department.

Duration: 4 years (8 semesters)

College of Engineering and Technology

Departments:
- Michatronics and Mechanical Engineering
- Electronics and Communication Engineering
- Computer Engineering
- Electrical and Control Engineering
- Construction and Building Engineering
- Industrial and Management Engineering
- Architectural Engineering & Environmental Design

Duration: 5 years (10 semesters)

In addition, the college includes specialized departments and programs:
- Basic and Applied Sciences
- Engineering Post-graduate Studies
College of Computing and Information Technology

**Departments:**
- Computer Science
- Information Systems
- Software Engineering
- Multimedia and Computer Graphic

**Duration:** 4 years (8 semesters)

In addition, the college includes specialized departments and programs:
- Post-graduate studies department.

The technologies of multimedia and computer graphics have pervaded most of the activities of business, communication and education. Consequently, the need for skilled and highly trained workforce is of vital importance. This requirement leads to the introduction of Bachelor of Science in Multimedia and computer game.

This program aims to produce graduates with a balanced mix of technical and artistic skills required for careers within the visual effects, computer animation, computer games and multimedia production industries.

College of Fisheries Technology and Aquaculture

**Departments:**
- Fisheries Technology

College of Fisheries Technology and Aquaculture is specializing in fisheries, enhancing students personality, and enriching their skills through technical activities. These will promote their academic and practical abilities, reinforce their rational efficiency and open up new career possibilities in different fields of fisheries.

**Career Opportunities:**

CFTA qualifies graduates to work in:
- Official organizations and institutions related to fisheries management.
- Arab and international organizations related to fisheries management and conservation
- Educational and training institutions
- Qualified to be captain of fishing vessel.

**Duration:** 4 years (8 semesters)
Port Training Institute
The Institute supervises the implementation of maritime training programs on training ship Aidaa VI, which are offered for Navigation and Marine Engineering students aspiring to work as marine officers and engineers.

Integrated Simulators Complex
It comprises: Ship handling simulator, satellite communication simulator, marine pollution control simulator, liquefied natural gas cargo simulator, oil analysis labs and Database Modeling Center (DBM) which is considered a cornerstone in the Academy centers for developing Arab cadres in the previously mentioned specialized fields.

Information and Documentation Center
The Information and Documentation Center (IDC) was established in 1983 to develop administrative and management information systems in different departments of the Academy
Miami Campus comprises
College of Management and Technology

**Departments: (Arabic – English- French)**
- Marketing and International Business
- Accounting and Financial Management
- E-Commerce
- Management Information Systems
- Hotels and Tourism
- Media Management
- International Program (Cardiff University)

The Academy’s educational programs qualify students to obtain various degrees, certificates and diplomas through the credit-hour-system, which affords them a great amount of flexibility in choosing the academic or professional educational program that best suits them.

**Duration: 4 years (8 semesters)**

College of Language and Media
- Media Department
- Translation Department

**Duration: 4 years (8 semesters)**

Graduate School of Business
It includes post-graduate studies and programs that aim at preparing business leaders, using the latest academic methodologies that blend scientific concepts with business practices so as to enable students to reach new horizons in the arts of distinctive administration.

- Doctorate in Professional Business Administration (DBA)
- Master of Business Administration (MBA) (Arabic- English)
- Master of Public Administration (MPA) (Arabic)
- Post-Graduate Studies Diploma in Marketing (Arabic – English)
- Post-Graduate Studies Diploma in Human Resources (Arabic – English)
Research and Consultation Center:
The Center reflects the Academy’s philosophy that is concerned with linking education with applied research. It has the following research departments:

Technical Research
- Information and Systems Analysis Research
- Computer Research
- Maritime Transport Research

International High School:
The School implements the programs of the International General Certificate of Secondary Education (IGCSE) in coordination with Cambridge University as well as the American Diploma.

Community Service Programs Center:
The center offers a variety of programs in the fields of (English language, Computer, Secretarial, ... etc.)

Specialized Institutes:
- International Transport & Logistics
- Productivity and Quality
- Sea Training
- Ports Training
- Hotels Institute
- Technical and Vocational Studies

Information Technology Centers:
- Integrated Simulators Complex
- Multi- Media Center
- Computer Services Center
- Computer Networks Center
- Regional Informatics Center
Academy Campuses in Cairo

The Arab Academy for Science, Technology and Maritime Transport opened its two campuses in Dokki in October 1997, and in Heliopolis in October 1998. In September 2012, the Academy opened its newest branch in Cairo in Smart Village to serve a wide sector of resident students in Cairo.

Bachelor of Science Studies Offered by Cairo Campuses

Heliopolis Campus

College of Management and Technology (Sections: English – French – Arabic)

- Marketing and International Business Department
- Accounting and Financial Management Department
- Management Information Systems Department
- Cardiff Metropolitan University Program
- London School of Economics Program

Duration: 4 years (8 semesters)

College of Language and Media

- Media Department
- Translation Department

Duration: 4 years (8 semesters)

College of Engineering and Technology

Department

- Electronics and Communication Engineering
- Computer Engineering Department
- Construction and Building Department
- Architectural and Environmental Design Department
- Mechatronics Engineering Department
- Electrical and Control Engineering Department

Duration: 5 years (10 semesters)

College of Computing and Information Technology

Departments:

- Computer Science
- Information Systems
- Software Engineering

Duration: 4 years (8 semesters)
College of International Transport and Logistics (Arabic – English)

- International Trade Logistics Management Department.
- Transport Logistics Management Department.
- Logistics and Supply Chain Management Department.

**Duration:** 4 years (8 semesters)

**Dokki Campus**

College of Management and Technology (English – Arabic)

- Marketing and International Business Department
- Accounting and Financial Management Department
- Management Information Systems Department
- Cardiff Metropolitan University Program

**Duration:** 4 years (8 semesters)

College of International Transport and Logistics (Arabic – English)

- International Trade Logistics Management Department.
- Transport Logistics Management Department.
- Logistics and Supply Chain Management Department.

**Duration:** 4 years (8 semesters)

**Smart Village Campus**

College of Management and Technology (English)

- Marketing and International Business Department
- Accounting and Financial Management Department
- Management Information System Department
- Cardiff Metropolitan University Program

**Duration:** 4 years (8 semesters)

College of Engineering and Technology

- Electronics and Communication Engineering Department
- Construction and Building Department
- Architectural and Environmental Design Department
- Mechatronics Engineering Department

**Duration:** 5 years (10 semesters)

College of International Transport and Logistics (English Department)

- International Trade Logistics Management Department
- Transport Logistics Management Department
- Logistics and Supply Chain Management Department

**Duration:** 4 years (8 semesters)

**Port-Said Campus**

College of Engineering and Technology

- Architectural and Environmental Design Department
- Construction and Building Department

**Duration:** 5 years (10 semesters)

College of International Transport and Logistics (English- Arabic)

- International Trade Logistics Management Department
- Transport Logistics Management Department
- Logistics and Supply Chain Management Department

**Duration:** 4 years (8 semesters)
South Valley Campus
The South Valley campus was established in Aswan to meet the needs and demands of our people in the south (Qena, Sohag, the New Valley, the Red Sea and Luxor). The Academy has decided to extend its programs to the South Valley, such expansion came out of the Academy’s interest in, and appreciation of, the aspirations of the residents of the South Valley. As the Academy believes in the importance of social solidarity and promotion of development, it has decided to offer a discount 50% of the tuition fees for the benefit of South Valley students.

Bachelor Degrees Offered by the South Valley Campus

College of Management and Technology
- Accounting and Financial Management Department

Duration: 4 years (8 semesters)

College of Engineering and Technology
- Electronics and Communication Engineering Department
- Construction and Building Department
- Architectural and Environmental Design Department

Duration: 5 years (10 semesters)

College of International Transport and Logistics (English)
- International Trade Logistics Management Department.
- Transport Logistics Management Department.
- Logistics and Supply Chain Management Department.

Duration: 4 years (8 semesters)

Graduate School of Business
- Doctorate /Master / Diploma of Business Administration (MBA)

International Transport and Logistics Institute
The Institute offers Master degrees in the following specializations
- International Transport and Logistics
- International Legal & Commercial Transactions and Logistics
- Logistics of Hospital Management
- Logistics of Supply Chains of Exporting Agricultural Products
- Logistics of Litigation and Dispute Settlement

Engineering Post-graduate Studies

Computing Post-graduate Studies
- Master degree in Computer Sciences – Information Systems.

Productivity and Quality Institute
- Master degree in Quality Management
- Diploma in Quality Management
Latakia Campus

The aim of establishing this campus is to qualify Syrian cadres to work on board ships on the high seas in the various fields of modern, technical sciences and engineering as well as administrative and technological sciences.

Bachelor of Science Studies Offered by Latakia Campus

- Bachelor of Science in Navigation + Second Mate, high seas, to work on board ships as per the requirements of The Standards of Training, Certification & Watchkeeping (STCW)
- Bachelor of Science in Marine Engineering + Third Engineer, high seas, to work on board ships as per STCW requirements
- Bachelor of Science in Management of Trade Logistics and International Transport
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Business Administration
International Accreditations

First: British Accreditation

British Accreditation of Engineering degrees at the Academy

Accreditation by the British Professional Engineering Institutes of the Bachelor of Science in Engineering degrees offered by Arab Academy for Science, Technology and Maritime Transport

The Arab Academy for Science, Technology and Maritime Transport pursues a constant policy designed to develop its educational programs and link them to internationally reputable educational institutions. Such endeavor arises from the Academy’s belief in the positive impact of such interaction on its graduates.

Accordingly, the College of Engineering and Technology obtained the British Engineering Professional Institutes’ accreditation of the Academy’s Bachelor of Science.

These institutes are

- Institute of Marine Engineering Science and Technology (I Mar. EST)
  Bachelor of Science in Marine Engineering programs

- Institute of Mechanical Engineering (I Mech. E)
  Bachelor of Science in Mechanical Engineering programs and Bachelor of Science Industrial and Administrative Engineering programs

- Institute of Electrical and Electronics Engineering (IEEE)
  Bachelor of Science in Computer Engineering programs; Bachelor of Science in Electronics and Communications Engineering program; and Bachelor of Science in Electrical and Control Engineering program

- Institute of Civil Engineering and Institute of Structural Engineers (I Struct. E)
  Bachelor of Science in Construction and Building Engineering program

- Royal Institute of British Architects (RIBA)
  Bachelor of Science in Architectural and Environmental Design Engineering program

This accreditation came after the Academy’s success in adapting and developing its engineering credit-hour-system programs so as to be consistent with their British counterparts.
Such accreditation, which is granted for the first time in the Middle East to an educational institution; namely, the AASTMT, allows graduates of the College of Engineering to have international recognition whereby they are entitled to membership of the above-mentioned institutes without the need to a prior scientific or professional assessment. Moreover, that accreditation gives graduates precedence of employment in local, Arab and international companies. These companies, when employing accredited engineers, are highly evaluated technically in the globalization system, open markets and the international trade agreements.

**Second : American Accreditation**

**ABET Accreditation**

As a result of the scientific excellence of the College of Engineering, along with the distinguished level of its teaching staff and its state-of-the-art laboratories, the AASTMT has earned an international academic accreditation from the American Accreditation Board for Engineering & Technology (ABET). Under such accreditation, Bachelor of Science degrees in Engineering awarded by the Academy are equivalent to their counterparts in the most prestigious U.S. universities. This academic recognition is valid for seven years, which exceeds the five-year period usually given, bearing yet another testimony to the distinction of the College of Engineering.

**Third: NAQAAE Accreditation**

As a result of the distinguished achievement of College of Engineering & Technology, College of International Transport & Logistics and College of Management & Technology they have earned the accreditation of the National Authority for Quality Assurance & Accreditation of Education (NAQAAE), which is an internationally recognized accrediting body, known for its fair and objective decisions, its leadership in quality assurance and excellence at the national, regional and international levels while maintaining its Egyptian identity.
Admission Rules and Regulations
Admission Rules and Regulations

Matriculation Requirements

- Holder of the High School (Thanawiya Amma) certificate or any equivalent certificate
- Medical fitness for the Nautical Department, Marine Engineering Department and Fisheries Technology
- The student must not exceed 22 years (for Egyptians) at the beginning of classes and must declare his military conscription status
- Sitting for the English Placement Test is a must
- The student in the Marine Engineering Technology can complete their studies to obtain a Bachelor of Science degree in Marine Engineering after the fifth semester if they have met the requirements of admission in the College of Engineering and Technology
Enrollment Documents and Fees

1. An official extract according to the type of the student’s certificate:
   - High School (Thanawiyya Amma): A certificate, or an official extract, of successful completion of High School (Thanawiyya Amma)
   - American Diploma: A certificate of grades of the tenth, eleventh and twelfth years with 12 years of schooling (official transcript)
   - IGCSE: Certificates of three years after the ninth grade
   - Certificate of successful completion of courses in all equivalent certificates (Abitur French Baccalaureate – the International Baccalaureate - the Canadian Baccalaureate)
   - The original (Thanawiyya Amma) must be submitted within 4 weeks after the study begining.

2. Birth certificate or an official document
3. A copy of ID card or passport
4. A copy of parent’s / guardian’s ID card or passport
5. Four personal Photos (6 x 4)
6. Payment of $ 200 as submission and enrollment fees (Non-refundable)
7. Mental and physical medical Certificate.
8. A letter of embassy approval of the student’s admission to the Academy. This is a must for students whose embassies require that approval (such as Saudi Arabia– Kuwait - the United Arab Emirates, Jordan, Oman- Qatar)
9. Military documents (2 Gond) for Egyptian students.

Early Admissions

This system gives the student the possibility of applying for the academy before the announcement of the final results of the secondary stage and pay part of the expenses (first two years results for IGCSE- SAT1 for American Diploma).

This phase ends on: 16/07/2015

Regular Admissions

Regular admission starts on 25/07/2015 according to the remaining places.

- The announcement of the result of acceptance is determined in accordance with the priority of the high school percentage, attendance of the Placement Tests prescribed by the Academy as well as the conditions by the Supreme Council of Universities in various disciplines.
- The announcement of the admission decision of each phase will be declared through the official website of the Academy www.aast.edu
- All students must submit the final results of the secondary stage (Thanawiyya Amma) at least two weeks before the announcement date of the acceptance decision.
- New Students are allowed to refund the ($1000) deposite before 20/08/2015. After this date and till the end of the third week of classes, they are allowed to refund only 50% of this amount. After the third week of classes, Students are not allowed to refund any part of deposite or tuition fees except the laboratory insurance amount

Online Admission

The student can fill out an application form through the Academy website www.aastmtic.aast.edu/onlineadmission/ and then complete relevant procedures afterwards.
College of Maritime Transport and Technology
- Math/Science - Navigation & Marine Engineering Technology (4 Years)

College of Engineering and Technology (Math)
- As per the requirements of the Egyptian Supreme Council of Universities.

College of Computing and Information Technology (Math/Science section)
- As per the requirements of the Egyptian Supreme Council of Universities.

College of Management and Technology
- Science/Arts section to enroll in Business Administration (Arabic section) / Hotels and Tourism, as per the requirements of the Egyptian Supreme Council of Universities.
- As for the majors of Business Administration (English section) and Hotels and Tourism, the student must sit for the English Placement Test held at the Academy.
College of International Transport and Logistics

- Science/Arts section to be accepted and as per the requirements of The Egyptian Supreme Council of Universities.
- As for the departments of International Transport (English section), the student must sit for the English Placement Test held at The Academy.

College of Language and Media

- Science/Arts section to be accepted and as per the requirements of The Egyptian Supreme Council of Universities.

College of Fisheries Technology and Aquaculture

- Science section to be accepted and as per the requirements of The Egyptian Supreme Council of Universities.

Change of Mind

- New Students are allowed to refund the ($1000) deposit before 20/08/2015. After this date and till the end of the third week of classes, they are allowed to refund only 50% of this amount. After the third week of classes, Students are not allowed to refund any part of deposit or tuition fees except the laboratory insurance amount.

Academic Scholarships and Deductions

- The Academy offers a number of scholarships to the students scoring the highest grade total in the Egyptian High School (Thanawiya Amma), and for this grant to continue, the student has to score an excellent final grade (not less than cumulative GPA 3.4).
- The Academy offers a discount of the tuition fees for students high scoring with a total of 95% or more in the Egyptian High School (Thanawiya Amma) as an additional discount.
- A discount of the tuition fees for the sons/daughters of employees in the League of Arab states and the Ministry of Foreign Affairs, as well as the sons/daughters of graduates of the Academy and officers of the Armed Forces and Police Academy.
- A discount of the tuition fees for the second brother/sister.
- A discount of the tuition fees for the sons/daughters of employees in the government and the Public Sector provided that those employees have served for no less than 15 years.
- A discount of the tuition fees for the sons/daughters of military and police officers.
Tuition fees cover offered services such as: the cost of books, notes, social, cultural and sports activities as well as medical treatment and accident insurance.

- Tuition fees of the Nautical Department and Navigation and Marine Engineering Department include the costs of accommodation, food services, uniform and activities costume.

- Students are covered by a $10,000 (ten thousand dollar) insurance policy against accidents during the study period and training, without any cost on the part of the students.

When are discounts inapplicable?

If the student repeats any course because of failing, withdrawing, or improving in that case, the cost of the course is fully paid without any discount privilege upon registration.

If the admission or sports scholarship is cancelled upon a decision made by the Students’ Affairs Committee on the student’s misconduct.

Excellence Scholarships:

Scholarships are offered to students during the period of study (exemption from tuition fees only). The rate of one full scholarship for each semester in each major for the highest cumulative Grade Point Average (GPA), according to the following conditions:

1. A cumulative GPA of not less than 3.4.
2. The number of students in a major must not be less than 15.
3. The student should have completely achieved the study hours of the previous academic periods.
4. The student must be regularly attending academic courses without postponement or interruption.
5. The student must continue his study in the same major.
6. The scholarship system does not apply to the summer semester.
7. The scholarship shall be equally divided in case more than one student has scored the same GPA.
8. In case more than one student has obtained a GPA of 4.00, each one of them is entitled to a full excellence scholarship.
9. The excellence scholarship system does not apply to students who transferred from abroad except after they have attended two semesters in the same major.
Rules Concerning Equivalent Foreign Certificates

First: International General Certificate of Secondary Education (IGCSE)

1. The number of schooling years must not be less than 12 (or three years have passed on successful completion of the Egyptian preparatory school).

2. Successful completion of the courses qualifying for admission into preferred majors

3. Successfully completion of Arabic and Religious Education courses from the Ministry of Higher Education

Engineering, Computing, Marine Navigation and Fisheries Technology and Aquaculture Majors

- Core Courses
  English Language or English Literature, Physics, Chemistry, Mathematics, Advanced Mathematics (A Level) or Advanced Supplementary Level Mathematics (AS Level)
  * For College of Computing, (AS Biology) can be accepted instead of (AS Math).

- Elective Courses
  Four of the following courses:
  Computer, Economics, Accounting, Business Administration, Biology, History, Geography, French, Arabic (first language), information technology, … .
Majors of Business Administration / Hotels and Tourism / International Transport / Language and Media

- **Core Courses**
  
  English Language or English Literature, Mathematics

- **Elective Courses**

  Six of the following courses:

  Computer, Economics, Accounting, Business Administration, Biology, History, Geography, French, Arabic (first language), information technology, … .

Grades Required for Admission to Engineering, Computer and Marine Navigation Majors:

- The student must have successfully passed eight courses of ordinary level with a minimum grade C in addition to a Mathematics Advanced Level (A Level) course or Advanced Supplementary Level (AS Level) course.

Grades Required for Admission to Majors of Business Administration - Hotel and Tourism - International Transport - Language and Communication:

- The Student must have successfully passed eight courses of ordinary level with a minimum grade C.

Second: The American Diploma

- The student should successfully pass eight courses, and in accordance with the courses qualifying for each college, provided that they successfully completed them in the twelfth grade, taking into consideration that the the course must not be less than (One Credit). The student can complete a maximum of three of the eight courses of the eleventh grade.

- Successful completion of SAT1 exam.

- For those who wish to join the Engineering, Computing and Fisheries Technology majors, they are required to pass the SAT2 in two courses, one of which is Mathematics and the other is either Physics, Chemistry or Biology.

- Spending three years studying in the American diploma.

- Successfully completion of Arabic and Religious Education courses from the Ministry of Higher Education.
Third: Other Foreign Certificates
(International Baccalaureate - French Baccalaureate
German Abitur - German Trade Diploma, etc.)

- Digital assessment is made in accordance with the assessment rules of the Coordination Office of Egyptian Universities.

Study and Attendance Evaluation Method

1. During Study

- Attending lectures is essential and teachers record the daily attendance of students in courses.
- The student is responsible for the lessons and assignments given during the period of their unexcused absence.
- The student will be forced to withdraw from the course if the percentage of their unexcused absence reaches 15% of the number of hours of that course, and 20% if the student’s absence was due to imperative circumstances that are left for the teacher and the department concerned to decide whether to accept or reject.
2. Through short / guided / long marine training (for students in the Nautical Department and Marine Engineering Technology Department)

- Student assessment through short, guided training is based upon regular attendance marks as well as the marks of scientific applications for that period. Evaluation will be conducted according to the regularity of the student’s attendance.

- The student’s training period will be canceled if the percentage of their regular attendance reaches less than 90% of the total number of hours for that period. In that case, the student will be considered failed.
**Student Services**

The Academy provides luxurious accommodation dorms and hostels at its AbuKir headquarters as well as its Heliopolis campus. Accommodation is mandatory for Navigation and Marine Engineering students during the first four semesters. The Academy also offers accommodation and food services for interested students from other departments. The Accommodation and Food Services Department provides all services for students, including nutrition, cleanliness, landscaping, laundry, deposit keeping, a barber and a tailor. Security supervisors are also available to ensure students’ safety inside residential buildings. The Academy’s AbuKir campus has banking services and communication services (Telephones – fax telex – post office – supermarkets).

**Transportation**

The Academy in Alexandria and Cairo headquarters offers transportation services from inside the city to the Academy premises and back for interested students who will pay the specified fees.
Medical Care and Insurance
The Academy extends medical care services to students of all majors through the Medical Services Department along with distinctive hospitals in Alexandria and Cairo, which are contracted to offer medical care to students. Insurance against accidents is also applicable.

Cultural, Social and Sports Activities
The Academy provides students of all majors and departments with cultural, social and sports activities. The AbuKir campus has a lot of potential for students to exercise all kinds of sports (such as football, basketball, volleyball, table tennis, swimming, rowing, sailing, gymnasium, etc.). All such services are also offered in other Cairo campuses in agreement with neighbouring clubs.

Student Services Fees
Accommodation, food services and bus fees are paid in Egyptian Pound only for Egyptian students who successfully passed the High School (Thanawiyya Amma) or its equivalents from the Arab Republic of Egypt.
## Online Exam Results and Absence Percentages

The Academy offers students the possibility to check their exam results online. By getting their secret number (*PIN No.*), from the Deanery of Admission and Registration, students can check the web for their results in the 7th week and the final term exams for all courses in which they registered, once these results are entered on the account. They can check their academic record and all their previous results. They can also complete their registration process via the internet.

Parents/guardians can follow up the attendance and course absence percentages of their student relatives via the internet.

All the Academy’s academic information is available on the internet: (specializations - curricula for all departments study commencement dates and vacations - summer courses tuition fees).

**Students’ Services and Activities are available online:**

(Accommodation – food services – trips – courses training opportunities – jobs for graduates)

[https://studentportal.aast.edu/](https://studentportal.aast.edu/)
International & Exchange Programs
International & Exchange Programs

A crucial role in the Arab Academy’s International Cooperation Sector is played by exchange programs mobility offered for all students in AASTMT. The Arab Academy signed several Memorandum of Understanding, (MOU) and Student Exchange Agreements with reputable universities worldwide. These agreements allow our students to study either in English or in French, for one semester or/and more in foreign universities, in order to gain international experience and obtain diplomas. The Arab Academy is an active participant in many prestigious international organizations and networks such as The International Association of Universities “IAU” emerged from UNESCO, Euromediterranean Network of Management and Engineering Colleges “RMEM” & “RMEI”, and BIMCO for the College of Maritime Transport.

College of Engineering and Technology

1. Undergraduate Exchange Programs
Students, enrolled in College of Engineering and Technology, can spend one semester and up to maximum two years as “exchange students” at one of the following Universities:

- The University of Technology Malaysia, MALAYSIA
- Northumbria University, ENGLAND
- Carleton University, Ottawa, CANADA.
- Fatih University, Istanbul, TURKEY
- College Of Engineering and Computer Science, University Of Central Florida (UCF), USA
- Staffordshire University, UK
- EPF Graduate School of Engineering, Paris, Montpellier - Troyes -FRANCE.
- University of Oviedo, SPAIN
- Queen’s University, Kingston, CANADA

2. Training and Summer Programs
Students can enroll in an undergraduate summer abroad program or training, to advance their knowledge of a language, global issue, and/or professional field while earning academic credit hours, in one of these institutes:

- Lincoln University, UK
- IKKE, Germany
- Staffordshire University, UK
- Queen’s University, Kingston, CANADA

3. Undergraduate Dual degree Programs
Students have the possibility of earning two degrees. In addition to the BA of the Arab Academy, they can get another BA from:

- Faculty of Computing, Engineering and Technology (FCET), Staffordshire University, UK
4. Postgraduate Academic Programs

AAST graduate students have dozens of opportunities to continue their studies in international programs. Current Study Abroad offerings are:

1. Missouri University:
A Collaborative Academic Program (CAP) in which qualified students enrolled at AAST, after successfully completing the first four years, can join Missouri University (following MU policies and requirements) for next 2 years, to obtain a Master degree, awarded by MU, and a Bachelor degree, awarded by AASTMT.

2. Nplusl program
Students who graduated from College of Engineering &Technology have the opportunity to register in N+I network for obtaining a Master degree from FRANCE. N+I include more than 70 reputable programs from which students can also get a scholarship according to their criteria.

- Graduate School of Engineering, EPF, France
- The University of Technology Malaysia, MALAYSIA
- School of Engineering and Applied Science, Aston University, UK
- Staffordshire University, UK
- College Of Engineering and Computer Science, University Of Central Florida (UCF), USA
- Northumbria University, ENGLAND

College of Computing and Information Technology

1. Undergraduate Exchange Programs
Students, enrolled in College of Computing & Information Technology, can spend maximum two years as “exchange students” at one of the following Universities:

- Carleton University, Ottawa, CANADA.
- The University of Missouri-Columbia’s College of Engineering, USA
- The University of Technology Malaysia, MALAYSIA
- Northumbria University, ENGLAND
- Lincoln University, UK
- College Of Engineering and Computer Science, University Of Central Florida (UCF), USA

It is possible to join partner universities of the College of Engineering &Technology, in case a similar department of the College of Computing and Information is present in the foreign university.
College of Management and Technology

1. Dual degree Programs
Students have the possibility of earning two degrees. In addition to the BA of the Arab Academy, they can get another BA from one of the following universities:

- Cardiff Metropolitan University – UK
  Students of College of Management & Technology can be enrolled in Cardiff Metropolitan University program (as an implemented program) from first semester until graduation.

- London School of Economics - UK
  College of Management & Technology (Heliopolis campus) offers to students the opportunity to earn a BSC degree in the fields of Business, Economics, Management, Banking and Finance from University of London under the academic direction of London School of Economics (LSE). They have the chance to join the world’s top graduate’s institutions.

Students enrolled in College of Management & Technology could spend their final year (7th&8th Semesters) at the following French Universities and from which they can obtain Bachelor degrees:

- EM Normandie (EMN)
- Ecole Supérieure de Commerce de Rennes (ESC Rennes)

2. Joint Programs
In one of the following programs, students, registered in College of Management & Technology (CMT), after spending two years or more at AASTMT, can obtain a bachelor degree from one of the following Partner Universities:

- Dakota State University 
  USA
- Central Michigan University
  USA
- Prince Edward Island University - CANADA
- University of Toledo – USA
- Northumbria University, ENGLAND

3. Exchange Programs
Students enrolled in College of Management & Technology can spend maximum two years at foreign universities as exchanges students. Courses will be taught in English and/or French (according to the students preferences) and will be validated upon their return as a “Transfer” credit hours to obtain the Bachelor degree from AASTMT.

- EM Normandie Caen – Le Havre
  FRANCE

- ESC Rennes School of Business – Rennes
  FRANCE
